

Peikko Group Corporation is a leading supplier of concrete connections and composite structures. Peikko's innovative solutions make the customers' building process faster, easier and more reliable. Peikko has subsidiaries in over 30 countries in Asia, Europe, the Middle East, and North America, with manufacturing operations in 9 countries. Peikko is a family-owned company with over 1300 professionals. Peikko was founded in 1965 and it is headquartered in Lahti, Finland.

Peikko Group's current R&D organization is responsible for Research & Technical Design, Innovations & Intellectual Property Rights, Technical Approvals, Technical Information for Designers and Tools for Designers, with personnel in 5 European locations.

In order to support local sales and to enhance local product portfolios in our main market area Europe, we are looking for a

SENIOR MANAGER, R&D LOCALIZATIONS EUROPE

The open position is new within the R&D organization. You will report to the Vice President, R&D, and be the team leader of some of our R&D Engineers. Your location is in Germany, preferably in our Waldeck production unit.

Your tasks

As the new Senior Manager, R&D Localizations Europe, you hold a vital position in increasing local sales and enhancing local product portfolios in the European market. Peikko adapts its current product portfolio to be compatible with the latest EN-standards. To boost the technical documentation localization process in Europe, you will steer and manage the adding of relevant, local technical documentation and approvals according to Peikko's strategy. You will act as project manager in local approval projects and localizations of our products and solutions.

Your requirements

We expect you to have an University degree and experience in international project management, preferably in the construction industry. You have technical understanding, excellent influencing skills, and ability to work in an international setting. You are a good coordinator and have experience in contract negotiation. You are able to manage multiple projects in a matrix organization. You have good command of written and spoken English and German. The position includes some travelling in Europe.

We offer you

A challenging and important role within a growing and international company, and an opportunity to grow and develop professionally.
